Feedback to Innovatum.com (Think campus),

- My first suggestion is to Sir that so less people are knowing about this think campus were a student can work ~~up~~ for his passion. So Every vijayapur Schools and colleges should know about the campus.
- By this we can change the mind of people that a vijayapur Students can also become a Entrepreneurs.
- By this our Societies thinking level will be changed. one more thing I need to tell that I am an IIIT Student. I persued this in vijayapur that time I was the only one girl and one boy attending this course. So I want this city to know all the technical thing going on in the world. So that the parents should encourage their students and leave them to learn their passonate subjects.
- I felt ~~not~~ really very Awesome by hearing this Innovatum.com and this team.
- I give one more suggestion to you Sir a part from practical knowledge please teach some basic theorotical things. So that both these knowledges mix up and give good skills.
- Thankyou for motivating me to work for my passion.
