I Really Enjoyed these 15 days session. first time in engineering I leasest, exits some topics with Enjoying the classes. always I get afraid, when in Laboreograms now I am luthenever I get errors, but at now I am happy to say that I have a confidence, that I have a confidence, that I will get olehung the errors. and I touch con

In my asticle I d copy and the dreams list of naundra modi, and collected Some quotes. but the idea is my own six.

Thank you six, you have fresh up my own old habbite like article everting the articles and Thank you for giving the articles and Thank you for giving the articles to talk few words about you team now I heally proud myself. The Six, I will develop my skills and stage courage. So.

Thank you to your whole Innovatum team, for coming to our college and giving us knowledge. Thank you six for inspiring us.
